Knowledge improves health

A healthy workplace cannot be created by chance, but through planning. This requires information that supports work ability management, risk anticipation and establishing practices to build healthy work communities from healthy employees and, subsequently, successful companies from healthy work communities.

Health pays off.

Outpatient clinic/service fee	0.00 €

Oral care services

*) Kela reimburses oral and dental examinations performed by a dentist once every two calendar years. You can be reimbursed once a year, however, if your state of health so requires.

**) Kela reimburses treatment by a dental hygienist with a referral from a private dentist. The referral is valid for two years from the date of signing, in accordance with the ordered number of visits.
If the treatment is given by a dental specialist, a 30% price increase applies when the given treatment is within the scope of the dentist's specialty.

Special out-of hours prices apply to dentist and dental specialist visits on weekends and holidays. On Saturdays and days preceding a public holiday (Christmas Eve, New Year's Eve, Midsummer Night's Eve, etc.), the out-of-hours price can be increased by up to 16%, and on Sundays and public holidays by up to 40%.

A specific price estimate requires a personal visit with a dentist. For example, root canal therapy often requires several visits, and a specific estimate can only be given during the first appointment.

Any additional materials (e.g. prosthetic parts, dental implants, fibers, pins, etc.) and dental laboratory costs will be charged separately.

Other services

Expert consultations or coordination work	Price
Expert work by major customer physician	198.20 €/hour
Coordination work by an Account Manager or coordinating occupational health nurse *	95.20 €/hour

Other fees

Travel time and expenses

The prices for occupational health services and well-being at work services that are provided at the customer's premises or another location determined by the customer do not include the costs of the travel time, which shall be charged according to the hourly rates of occupational healthcare professionals (each beginning quarter of an hour), plus travel expenses according to the Traveling Regulations of the Finnish Tax Authority.

Reasonable travel expenses according to the Traveling Regulations of the Finnish Tax Authority are added to the price of all-day well-being at work services if they require travel by the coach.

*) The service is normally not an occupational health service reimbursable by Kela.

Missed appointments

Cancellations of appointments with occupational healthcare professionals and specialists must be made at least 24 hours before the time of the appointment. Cancellations of workgroup and group activities must be made no later than one week in advance. The above deadlines must be adhered to unless otherwise agreed in a separate agreement. For late cancellations and missed appointments, we charge the listed price in full.

Occupational accidents and diseases

Visits related to occupational accidents or diseases shall be invoiced directly from the insurance company. If the insurance company makes a negative compensation decision, the employer shall be invoiced later.

Validity of the price list, terms and conditions

This price list is valid from January 1, 2022, until further notice.

The prices are exclusive of VAT, unless otherwise specified in writing. VAT according to the VAT Act is not added to the price of occupational health services that are considered medical and healthcare services. If taxable services or products are sold in addition to the healthcare services, VAT is added to the price. If it is later decided that a service that has been sold was taxable, the seller has the right to charge the buyer for VAT according to the applicable tax rate

The services marked with an asterisk (*) are generally not occupational health services reimbursed by Kela.

Services may be added to or removed from the price list following developments in the healthcare service sector. We reserve the right to review the prices and services, if healthcare-related regulations, regulatory decisions or research practices are changed or the cost of occupational healthcare changes significantly.
